Projects

WeRide

June 2022 – November 2022

The final product of our intensive 4-month Re:Coded UX/UI Bootcamp was a high-quality prototype of a ride-sharing application that I successfully led my team to deliver. Our efforts produced a beautiful and user-friendly end result that displayed our recently learned abilities and information.

Sharwal

April 2023 – June 2023

After Bit Bootcamp, I've started my first project, Sharwal, a Kurdish attire website aimed at serving my community and helping them achieve goals.

Namabar

2024 – Present

Designed Namabar's UX/UI, creating intuitive sender registration, bulk messaging workflows, contact management, and analytics dashboards to improve campaign efficiency.
